EDUCATION

Integrated Master of Technology

Vellore Institute of Technology

2022 – 2027

CGPA : 8.53/10

EXPERIENCE

Data Analyst Intern

Inkgraph Techno Pvt. Ltd.

Oct 2025 – Dec 2025

- Engineered automated **Python-based data validation frameworks** and ETL pipelines to cleanse 50,000+ records, integrating **unit testing** to ensure data integrity and reducing processing time by **40%**.
- Designed and deployed **interactive Tableau dashboards** using complex calculated fields and parameters, migrating legacy reports to provide stakeholders with real-time, high-fidelity performance metrics.
- Developed **automated Python scripts** for outlier detection and trend analysis, streamlining the reporting lifecycle and increasing data accuracy by **25%** through continuous integration of new data sources.
- Optimized SQL queries and database schemas for **Tableau integration**, reducing dashboard load times and enhancing the scalability of client-facing analytics products.

PROJECTS & PROFESSIONAL DEVELOPMENT

Enterprise API Architecture (Spring Boot)

Tech stack: Java, Spring Boot, Spring MVC, Hibernate/JPA, REST API

- Architecting robust RESTful web services via hands-on professional development (Udemy), focusing on an "outside-in" approach prioritizing consumer data needs.
- Combining individual MVC modules into scalable backend components, utilizing Dependency Injection and Spring Data JPA for optimized database transactions.

Real-Time Face Recognition Subsystem

Tech stack: C/C++, Python, OpenCV, TensorFlow, Windows OS

- Developed a low-latency video processing component using **C++** and OpenCV, successfully integrating it into a larger sentiment analytics subsystem.
- Applied strong **OS fundamentals** to manage memory allocation and hardware threading on the **Windows platform**, ensuring smooth real-time performance.
- Engineered and tested a custom CNN architecture (98% accuracy), owning the complete realization of the machine learning module from data curation to deployment.

TECHNICAL SKILLS

- Languages & Core:** C/C++, Java (Spring Boot), Python, SQL, Bash scripting
- Software Engineering:** SDLC, System Integration, Unit Testing, Modular Component Design, Object-Oriented Programming (OOP)
- Platforms & OS:** Windows Platform (Primary), Linux fundamentals, OS architecture, Docker, Git
- Professional Traits:** Quick learner, self-starter, excellent written/spoken communication, proven ability to work independently or in global teams

CERTIFICATIONS

- Google Advanced Data Analytics Professional Certificate** – Coursera 11/2025
- Machine Learning (ELITE Certification)** – NPTEL 10/2024
